

YOU'RE INVITED

CHAPTER GUESTS

VACANCIES

- **Chapter Official Category Open**
The category in the chapter is open and the invited guests create no conflict of interests.
- **Invite Power Partners**
Every guest you invite should either be a Power Partner for you or another member in the chapter. This helps generate more tips for you and the chapter.
- **Are They A Qualified Guest**
Do they work full-time in the category, hold the required skills, License's, etc. Invite guests that you would do business with and who are on the same chapter mind set.
- **Chapter Vetting Guests**
All chapter members should carefully evaluate and get to know the guest during their two allowed visits. When they vote on guest, they really want to know who they might be voting in and if they are a good fit for the chapter.
- **Split Categories**
First before any guest is invited which a current chapter member already fills the category, first ask the member in the chapter if they are open to splitting their category. If so, then it is ethical to invite the guest. If the guest joins, each member signs and agreement to what they will cover under the category that they now both will share.

QUALIFIED GUESTS

What is a Qualified Guest? Someone whose category is not represented in the chapter and if accepted would not be in competition with an existing member. They must work full-time in that occupation. Full-time means the majority of their income is derived from the category selected. They have the required skill, license, and/or accredited in the category currently not filled by a member in the chapter. If the state requires a license, certificate, or insurance to complete the work then they must provide proof of it.

Guest's Coverage: Guests are only covered by LeTip to attend two consecutive chapter meetings, to continue they must have submitted by week two a LeTip membership application with payment for enrollment. The chapter Inspector will visit the guest's place of business and report back to the chapter. The chapter will then vote on the guest to accept or deny their application.

Approval: Any board member may then approve the LeTip Wired application. Once this is done, the member's payment is processed and their badge, card caddy, and lapel pin are made up and mailed to the chapter president on file.
